

Wild Waves Cabernet-Merlot is composed entirely from grapes grown in the Hawkes Bay area. It is a nice blend between elegant red fruit given by the Merlot and power and structure given by the Cabernet Sauvignon.

Tasting notes:

Nice and deep red colour with purple hue, intense aromas of blackcurrant, strawberry and spices developing on the nose. Mouthfeel is full bodied, driven by nice black fruit and red fruit aromas, the tannins are fine and the oak is well integrated. Lingering finish on baked bread.

Technical information:

Alcohol content: 13% vol.

Total Acidity: 5.82 g/L

pH: 3.55

Production: 2 000 bottles.
